

Version Compatibility & the HTEX Protocol

Chris Janidlo
Globus Compute

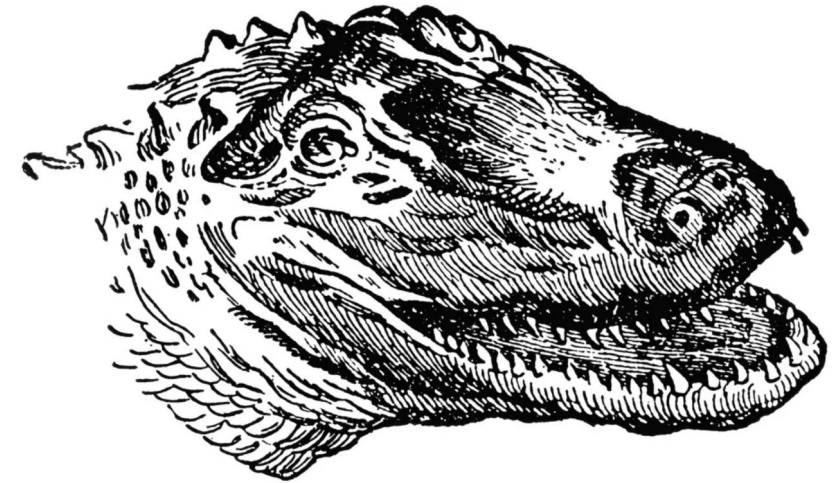

What's the big dill?

- Parsl expects synchronized versions; Compute doesn't
- HTEX's protocol: Pickle

Keep YOUR pyobjects out of MY runtime!

Pickle Is Not
Cross-Version
Compatible

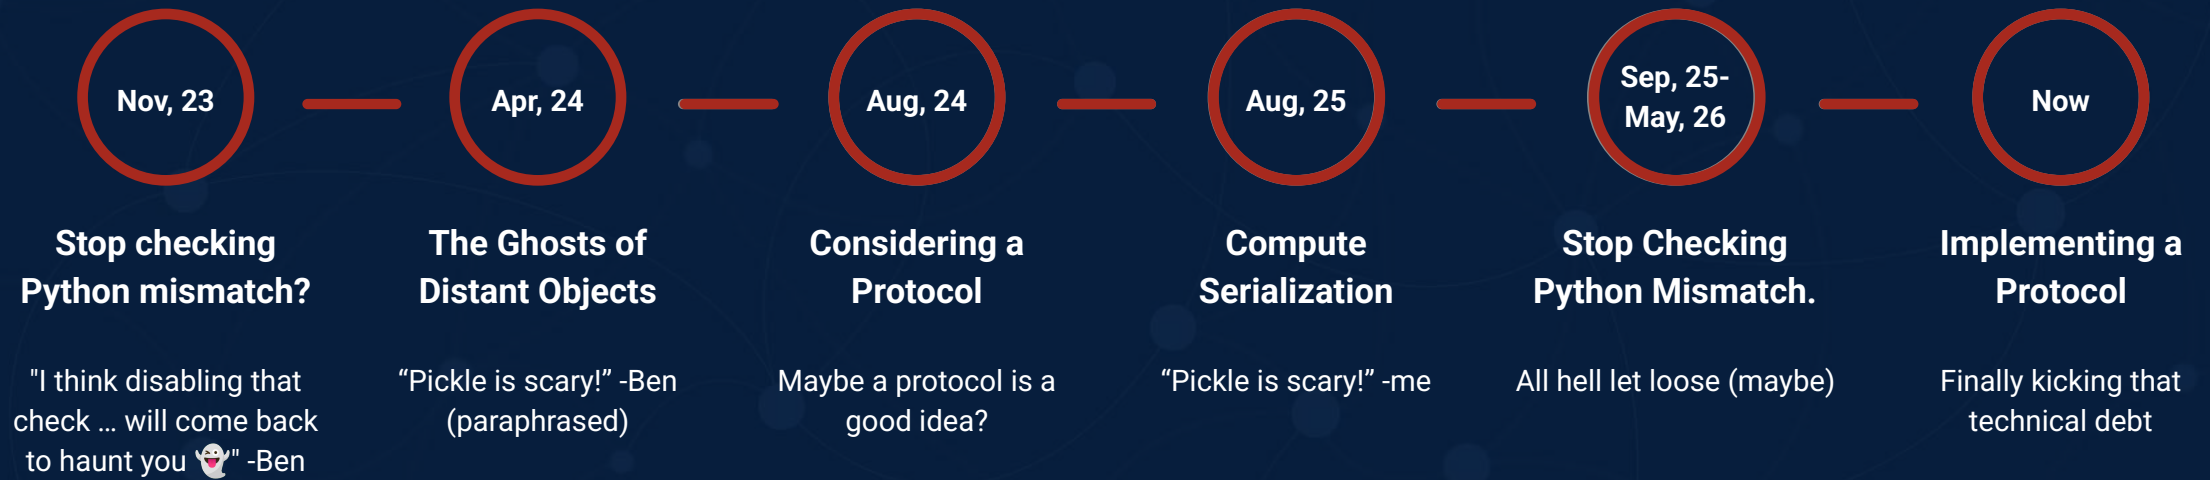

don't believe anyone who tells you otherwise

O RLY?

Chris Janidlo

Some history

The solve

- **versioned module**
- **portable wire protocol (25 picklings -> 2)**
- **cross-version testing (#4088)**

very in progress!

DEBT

For Parsl devs & users

- **easier to work with**
 - issue #3323
- **cross-version compatibility for other executors?**

For Academy devs & users

- **this error class bubbles up opaquely from Compute**
- **Academy is just as distributed as Compute**

The end

- **What cross-version use cases do you have?**
